Customization & Quality Craftsmanship

Our world-class team of design engineers is devoted to producing high quality products that meet all the needs and specifications of onsite architects. We design and manufacture all Roof Access Hatches to operate efficiently in every environment. And when you need something a little less traditional, we can ensure a truly customized product!

Elmdor/Stoneman® provides an array of customizable options including custom frame sizes, latch and lock designs, hatch and door colors, warning borders and more. If you need it, we can build it!

Elmdor/Stoneman® is the industry leader in designing and manufacturing access doors and roof hatches for all commercial applications. Our exceptional design team triumphs in building optimal products that are both functional and attractive. Combine this with an unmatched customer experience, vast product availability and selection, rapid delivery and unbeatable service. You know why there is NO SUBSTITUTE to quality.
